Is there any posture/shoulder tension or head position favoritism?	Y	N	

## Baby's Symptoms

- Poor latch
- Falls asleep while attempting to nurse
- Slides off nipple while attempting to latch
- Colic symptoms
- Reflux symptoms (chronic spitting up, gagging, vomiting)
- Poor weight gain
- Gumming or chewing of nipple while nursing
- Unable to hold a pacifier in mouth
- Sort sleep episodes; feeding every 1-2 hours
- Chronic burping, flatulence, hiccups
- Clicking noises or loss of suction
- Choking or coughing on milk
- Long breastfeeding time (>20min per breast)
- Distended or bloated belly
- Crease mark on baby's upper lip after nursing
- Breastmilk leakage from mouth, nose, or both
- Blistering on upper *and* lower lips

## Mother's Symptoms

- Creased, flattened, or blanched nipples (after)
- Cracked, bruised or blistered nipples
- Bleeding nipples
- Severe pain when your infant attempts to latch
- Poor or incomplete breast drainage
- Lip or tongue feels weak on breast
- Infected nipples or breast
- Plugged Ducts
- Mastitis or nipple thrush
- Poor or incomplete milk transfer (breasts don't feel emptied after feedings)
- Low milk supply
- Overactive letdown
- Do you supplement with a bottle to assist with proper feeding?
- Use a nipple shield
- Is one breast more affected than the other

Family History of Tongue Tie  Lip Tie
